

# INSULATION REBATES

## Colorado Natural Gas Customers

Rebates will be paid on a first-come, first-serve basis and are subject to budget availability and program changes. Applicants have up to 120 days from the insulation installation to submit a rebate application. If the 120 days have passed, the applicant may still be eligible for a rebate if the Program Year budget has not been exhausted.

## TERMS AND CONDITIONS

- Rebates will not be paid unless the installation is completed by a licensed contractor.
- Installers may be eligible for a \$50 rebate per unit installed, subject to change in accordance with Colorado labor standards. For questions regarding installer rebate please call the number below.
- CNG must provide the main heat source fuel. Heat Pumps are considered main heat source regardless of settings, therefore, no heating or envelope measure rebates would be eligible when a Heat Pump is present.
- All submissions must include dated sales invoices/receipts. Invoices/receipts must include equipment retail price.
- No rebate will exceed equipment/installation purchase price.
- Rebates will be paid on a first-come, first-served basis and are subject to budget availability and program changes. The program will end when the budget is depleted. Funds are limited.
- Applicants have up to 120 days from the installation of the insulation to submit a rebate application. If the 120 days have passed, the applicant may still be eligible for a rebate if the Program Year budget has not been exhausted.
- Colorado Natural Gas reserves the right to inspect all rebated equipment.
- This program is subject to regulatory rules and orders. Colorado Natural Gas reserves the right to change or end any portion of this program without notice.
- To avoid delay, the dealer invoice returned with your rebate application must include the date of installation, installation address, and installer licence number. Insulation cost, labor, and tax must be itemized.
- Checks will be made payable to customer shown on invoice. Builders and installers are eligible to receive their customer's rebates if a discount to the customer for the rebate amount is shown on the submitted invoice.
- Please allow 6-8 weeks from the date a completed application is submitted to receive a rebate payment.
- Applicant must provide pre and post photos by measure use of a ruler of existing insulation levels for rebate consideration. For additional questions, please call inquiry contact listed below.
